

Consultant

Solution Creation & Delivery	I proactively find insights and deliver impactful recommendations. I own delivery of end-to-end storyboarding and content creation, influencing the direction of the project through the quality of my output.
Core Consulting Skills	I enhance and progress project work through the application of a wide range of tools and frameworks, applying my learnings to anticipate relevant tools for each project stage.
Client Engagement & Relationship Building	I build confidence and relationships with clients, bringing insight to client meetings and taking responsibility for running client sessions or workshops.
Project Planning & Management	I understand the client problem and help shape the approach to tackling it. I own the project plan and am always thinking ahead and preparing for what's next.
Team Relationships & Management	I am the on-the-ground team connector, guiding Analysts and supporting Client Managers in order to maximise and strengthen the team's effectiveness in delivering for clients. I work collaboratively across the team to achieve the highest standards.
